LUXE SPORT

e:HEV
TECHNOLOGY

ELECTRIFIED ELEGANCE.

Welcome to the next chapter in the evolution of the electrifying Jazz range. The Jazz e:HEV Luxe Sport brings together dynamic design, modern styling and intuitive technology, reinforcing the superior comfort and space that made it the AA Driven Car of the Year 2022 - Passenger Class.

With its extensive selection of lifestyle features created to enhance your day-to-day, the Jazz Luxe Sport presents an alluring offering, with all the features you have come to expect from Honda including our legendary Magic Seats offering even more flexibility and lifestyle options.

The Jazz e:HEV Luxe Sport's exterior frame features a new sporty front and rear bumper and matte front grille to extenuate the premium feel of the vehicle. This continues into the car with a luxury interior offering top-end comfort and style with its new high-quality soft leather materials and a new model-specific Soft Brown variant. It also comes fitted with anti-fatigue seats which ensure maximum comfort on long trips and throughout continuous everyday use. As an added touch, the vehicle features heated front seating and extra large coffee cup holders in the front.

We've pushed the performance and electrifying drive experience even further in the e:HEV Luxe Sport, with an upgrade to Honda's e:HEV unique two-motor system, our latest hybrid technology. In this iteration, the Jazz's already gutsy e:HEV electric motor now produces an extra 10kW of power, without sacrificing on its fuel economy and reliability.

Honda's e:HEV engines come standard with three interchangeable drive modes: EV, Hybrid and Engine mode. These change automatically to maximise driving efficiency no matter the conditions.

Safety is always paramount in the Jazz, with the latest full Honda Sensing Suite as standard, our revolutionary 90.2 degree field of vision panoramic windscreen and hydrophilic coated and heated door mirrors.

FJORD MIST PEARL PICTURED.

Equipped with the latest technology, the Jazz e:HEV Luxe Sport boasts a high-quality 9" touch screen display system with a customizable interface. It also features wireless Apple CarPlay and (wired) Android Auto connectivity putting all the things you love right at your fingertips. Steering wheel mounted controls make your selections easier and safer with further connectivity onto the

new 7" digital driver display. New this year also is wireless charging, giving that added level of functionality.

Truly outstanding in its field, the Jazz e:HEV Luxe Sport represents the next evolution of the electrifying Jazz range.
