- Power 4 Way Electric Passenger’s Seat
- Driver’s Seat Memory System
- Steering Wheel Mounted Shift Paddles
- Ambient Interior Lighting (Foot & Doors)
- Leather Shift Knob
- Auto up/down Windows (R)
**AUDIO & CONNECTIVITY**

**ADVANCED DISPLAY AUDIO**
The CR-V offers the latest in smartphone connectivity, allowing you to seamlessly integrate either Apple or Android devices with the Advanced Display Audio Unit.

Apple CarPlay™ is a smarter, safer and more fun way to use your iPhone in the car. It offers easy navigation and extensive audio and communication capabilities, all while you keep your eyes safely on the road. Use Apple’s Highly intelligent Siri voice assistant to get directions, make calls, send and receive messages, and select your favourite music.

Android Auto™ allows you to quickly connect your compatible smartphone for navigation, communications, music and more. By extending the Android platform in a way that's purpose built for the car, Android Auto is designed as powerful voice actions, with safety in mind.

**VOICE COMMANDS**
Connecting a device featuring voice commands will enable you to create a text message, find a location, even check the weather, at the touch of a steering wheel mounted button.

**GARMIN NAVIGATION APP**
The CR-V Sport 7 and above comes standard with an intuitive Garmin Navigation App. Satellite Navigation from Garmin means you always know the best way to go, even if you do not have an active smartphone connection.

**MULTI ANGLE REVERSING CAMERA**
Shift into reverse and the multi angle camera automatically displays one of three rear views on the Advanced Display Audio Unit. The CR-V combines information received from parking sensors and steering, to perfectly project and display your path as dynamic guidelines overlaid on the reversing camera feed.

**LANEWATCH CAMERA**
Honda's Lanelwatch Camera is the next step in blind spot detection. When indicating left, or at the push of a button, a camera mounted under the passenger wing mirror shows a sweeping 80˚ view – making lane changes safer than ever.

**DRIVER INFORMATION INTERFACE**
A quick glance behind the steering wheel shows what’s playing, who’s calling and almost everything else you need to know including outside temperature, average fuel consumption, trip metre and distance to empty.

**DRIVER ATTENTION MONITOR**
Sometimes it’s hard to keep your focus on the road. The clever new CR-V has your back with its Driver Attention Monitor system. Utilising electronic & steering inputs to calculate driver awareness, the CR-V then offers four gradual visual, audible and tactile alerts to get you back on track.

**FORWARD COLLISION WARNING**
The Honda Forward Collision Warning System uses a small camera, mounted at the top of the windshield, to determine if you are at risk of a collision with another vehicle. The system issues audio and visual signals, and will automatically apply brake pressure should you fail to react.

**ROAD DEPARTURE MITIGATION**
The Road Departure Mitigation system works in conjunction with the Lane Departure Warning sensors to gently correct your course, via steering and braking adjustments, in the event of the vehicle leaving a detected lane.

**LANE DEPARTURE WARNING**
The windshield mounted camera identifies common safety markers, like lane dividers and catseye markers, and will issue an audio alert if you are about to leave your lane without signalling.

**LANE KEEP ASSIST**
Honda’s Lane Keep Assist System reduces the strain of extended driving by helping you maintain your lane position. If the vehicle begins to leave the centre of a detected lane without signalling, the steering automatically adjusts to keep you centred.

**ADAPTIVE CRUISE CONTROL WITH LOW SPEED FOLLOW**
The CR-V’s onboard radar & camera sensors enable the Adaptive Cruise Control to maintain a set following interval by automatically adjusting your cruise control speed up or down when traffic is detected.

**COLLISION MITIGATION BRAKING SYSTEM**
The CR-V incorporates a millimetre wave radar sensor, that helps mitigate the severity of an unavoidable accident by automatically applying strong brake pressure when needed.

**FORWARD COLLISION WARNING**
The Honda Forward Collision Warning System uses a small camera, mounted at the top of the windshield, to determine if you are at risk of a collision with another vehicle. The system issues audio and visual signals, and will automatically apply brake pressure should you fail to react.

**ROAD DEPARTURE MITIGATION**
The Road Departure Mitigation system works in conjunction with the Lane Departure Warning sensors to gently correct your course, via steering and braking adjustments, in the event of the vehicle leaving a detected lane.

**LANE DEPARTURE WARNING**
The windshield mounted camera identifies common safety markers, like lane dividers and catseye markers, and will issue an audio alert if you are about to leave your lane without signalling.

**LANE KEEP ASSIST**
Honda’s Lane Keep Assist System reduces the strain of extended driving by helping you maintain your lane position. If the vehicle begins to leave the centre of a detected lane without signalling, the steering automatically adjusts to keep you centred.

**ADAPTIVE CRUISE CONTROL WITH LOW SPEED FOLLOW**
The CR-V’s onboard radar & camera sensors enable the Adaptive Cruise Control to maintain a set following interval by automatically adjusting your cruise control speed up or down when traffic is detected.

**COLLISION MITIGATION BRAKING SYSTEM**
The CR-V incorporates a millimetre wave radar sensor, that helps mitigate the severity of an unavoidable accident by automatically applying strong brake pressure when needed.
VERSATILITY

Designed from the ground up, the new CR-V is larger than the previous model which means rear seat passengers will get even more room than before.

Rear seats that both recline and fold on all models allow for incredible versatility. In the 5 Seat models, simply pull the handle in the boot and the Single Molotov 2nd row folds down, revealing a flat cargo area. Our range now also features two 7 seat models – from furniture to friends your CR-V will have the perfect space to fit your load. Class leading flexibility and utility are served up in leather clad style.

5 SEAT MODE

The 3rd row seats fold down, and the 2nd row slides back to allow for a spacious cabin for 5 travellers and their luggage.

7 SEAT MODE

All aboard with the 3rd row up, 7 can travel in style, or even 5 with some extra room to move. Split sliding 2nd row allows for everyone to get just the room they need.

UTILITY MODE

The simplest configuration - where the both rows of back seats fold down to give over 1000L of storage space from seats to ceiling. A clever adjustable boot floor allows for tiered storage and a flatter loading area.

LONG MODE

From flat board to washing lines, clever long mode enables the passengers seat to fold back allowing the full interior length of the CR-V to be utilized for moving those long loads – whilst still allowing space for passengers too.

## EARTHDREAMS POWERTRAIN

Get a more responsive and dynamic drive from the moment you set off thanks to Honda’s clever EarthDreams technology. Both engine and transmission packages are enhanced to deliver a unique mix of driving enjoyment with outstanding environmental performance.

## VTEC TURBO

Honda’s VTEC Turbo is the turbo engine reimagined, achieving both excellent fuel economy and the fun of driving. Turbo engines were traditionally powerful – at the cost of fuel efficiency - but that has completely changed with the VTEC Turbo.
